

# Corporate Fact Sheet

**“Vox ISM is the #1 reseller of Microsoft® Dynamics in Canada”** - Softchoice, Inc.

With over 12 years of experience in the business applications market in Canada, Vox has helped hundreds of businesses reach their full potential through the thoughtful application of best practices and technology. At Vox we focus strictly on marketing, selling, and implementing Microsoft Dynamics. We are proud of our reputation of delivering successful ERP and CRM implementations quickly for a rapid return on investment and provide outstanding customer service.

### Fixed Scope/Fixed Rate Implementations

The Vox ISM Professional Services group is made up of an extensive team of professionals who have many years of finance, industry, and Information Technology (IT) experience in a variety of industries, providing the level of service expected from our client base. Such diverse and complementary skill-sets enable Vox to provide the mix of products and services demanded by a highly competitive global market.

All consultants undergo rigorous training before becoming one of Vox's Certified trainers. Strong project management skills, dedicated people, and a proven approach have made us successful. Our goal is simple, successful software system implementations on time... every time. From site review through installation, to user training, Vox will guide your organization through the transition of implementing a leading edge, fully integrated, Enterprise Resource Planning (ERP) manufacturing software system. With hundreds of combined years of manufacturing industry and related experience, the Vox team will show you how to implement and effectively use Microsoft Dynamics software and affiliated products.
